

Obama 08 - You Can Make The Difference! Do It Yourself Sign Template

If you want your own **Obama** sign, of any size and scale, to show your support, on page 2 of this PDF there's a template you can use. Just measure your square base (board, canvas, etc) of any size out into sixths and use the lines to help you focus on tracing, and then painting in, one small part at a time.

Why DIY?

The need for signage and resources is intense, going in to the General Election, and we shouldn't count on signage and materials being available to all who want them,

But that's not necessarily a problem. In fact, a great part of Barack Obama's message is that you yourself have the means to create change in your life and the lives of others... And showing your own initiative by making your own sign is a great way to put that idea to work.

Those who see your sign from a distance will marvel that you got such a large version of the **Obama** icon to use. As they get closer and see that this simple and instantly recognizable message of support was hand-crafted by you yourself, a second message will hit home.

"We... are the ones we've been waiting for." - Barack Obama

"You must be the change you wish to see in the world." - Mahatma Gandhi
